Education

The Hong Kong Polytechnic University,

Department of Electrical and Electronic Engineering

BSc (Hons) Artificial Intelligence and Information Engineering

GPA: 4.00 / 4.30

- Deep Learning and Deep Neural Networks (A+)
- Foundation Techniques in Artificial Intelligence (A+)
- Machine Learning in Cyber-Security (A+)
- Distributed Systems and Cloud Computing (A+)
- Data Structures (A+)
- Calculus and Linear Algebra (A+)
- Computer Programming (A+)

Hong Kong

2022 – Present

Korea Advanced Institute of Science and Technology (KAIST)

International Summer School

Daejeon, South Korea

Jul 2024 – Aug 2024

Awards and Honors

2024/25: The Hong Kong Polytechnic University Scholarship 2025/26 (HKD 40,000)

2024/25: National Second Prize, 19th “Challenge Cup” National Competition

2024/25: PolyU Undergraduate Research and Innovation Scheme Completion Scholarship (HKD 10,000)

2024/25: SINOPEC “Cleaner Energy Better Life” Scholarship (HKD 20,000)

2024/25: PolyU Dean’s Honours List

2023/24: The HKSAR Government Scholarship Fund: Reaching Out Award (HKD 10,000)

2023/24: Merit Prize, 10th Hong Kong University Student Innovation and Entrepreneurship Competition

2023/24: PolyU Undergraduate Research and Innovation Scheme Progress Scholarship (HKD 10,000)

2023/24: Dr Winnie S M Tang–PolyU Student Innovation & Entrepreneurship Scholarship (HKD 5,000)

2023/24: PolyU Dean’s Honours List

2022/23: PolyU Dean’s Honours List

Research Interests

Large Language Models (LLMs), LLM Multi-Agent Systems, Agent Memory, AI for Scientific Discovery

Research and Internship Experience

Research Experience.....

SGSimEval: A Comprehensive Multifaceted Benchmark for Automatic Survey Generation

- Proposed and developed **SGSimEval**, addressing limitations of existing ASG evaluation frameworks.
- Integrated LLM-based scoring, quantitative metrics, and human evaluation into a unified benchmark.

InteractiveSurvey: An LLM-Based Personalized and Interactive Survey Paper Generation System

- Developed an end-to-end survey generation system using LLMs + RAG for improved factual relevance.
- Designed an online interactive demo for user-customized literature survey generation.

MegaFake: A Theory-Driven Dataset of Fake News Generated by Large Language Models

- Co-authored a benchmark for fake news detection and generation under the LLM-Fake Theory framework.
- Built a large-scale synthetic dataset from GossipCop using controllable LLM text generation.

Teaching Assistant GPT (TA-GPT): Enabling Lengthy Inputs with Academic Context

(Undergraduate Research and Innovation Scheme)

- Designed the TA-GPT framework to improve long-context comprehension.
- Proposed Topic-Enhanced Embedding schema and built a dataset of 100k topic-abstract pairs.

Internship Experience.....

Southern University of Science and Technology **Shenzhen, China**
Remote Research Intern, GenAI Lab *Aug 2025 – Present*

- Assisting in developing a fully automated AI scientist system based on foundation models.

The Hong Kong Polytechnic University **Hong Kong**
Student Assistant, Internet and Mobile Computing Laboratory (IMCL) *May 2024 – Present*

- Contributed to an area-aware benchmark for automatic survey generation evaluation.

The Hong Kong Polytechnic University **Hong Kong**
Student Assistant, Joint Project with CLP Power Hong Kong Ltd *Mar 2024 – Jun 2024*

- Fabricated surrogate stators using Fusion 360 and 3D printing for maintenance simulation tests.

Professional Activities

Nov 2025: Invited Speaker, The 24th International Workshop on LLMs for Next-generation Education

- Delivered a research sharing presentation on our recent research in PolyU, Hong Kong.

Oct 2025: Oral Presenter, The 21st International Conference on Advanced Data Mining and Applications

- Presented the first-authored paper via both the oral session and the poster session in KyotoU, Japan.

Oct 2025: Volunteer, The 12th International Conference on Behavioural and Social Computing

- Assisted participants with registration and logistics during the conference.

Feb 2025: Team Leader, Mathematical Contest in Modelling (MCM 2025)

- Led a team applying machine learning models for Olympic medal prediction.

May 2024: Team Leader, The 10th Hong Kong University Student Innovation & Entrepreneurship Competition

- Led development of anti-fraud app *DeepAuthen*, delivering a 40-page proposal with demo.

Skills

Programming: Python, Java, C/C++, Bash, JavaScript, SQL, Matlab

Web: Django, MongoDB, Node.js, Express.js, CSS, Bootstrap

● Python 65% ● Bash 10% ● Web 10% ● Java 5% ● C++ 5% ● Other 5%
